

GUIDANCE:

Penalty Corner Protective Equipment:

In a move designed to protect its playing members the committee will kit-out all Senior and Youth teams within the next 3 years with personal protective penalty corner equipment including masks and gloves etc.

This comes at a significant cost to the club, all members are asked to be vigilant in the care and retrieval of the "PC Kitbag" at the end of each match. This equipment remains exclusive property of the club and is not to be loaned out to representative/school teams.

Teams will initially receive one mask and kit bag which will be kept with the GK equipment unless otherwise directed by the team management.

The club advises teams issued with PC protective equipment, "all players defending PC's must wear protective equipment for their own safety".

This kit-bag will progressively be added to each season until all teams are adequately protected at penalty corner time. Those players who prefer to purchase and wear their own equipment are welcome to use the kit-bag for storage of their items but should ensure they are marked and easily identified.

PC kits will be collected by team captains and handed in at the end of each season for cleaning and a safety survey.
