

MATRIX ADDENDUM

A pitcher can only pitch either:

(a) A MAJOR - (b) A SUBSTANTIAL- (c) 2 MINORS per day.

- Any player pitching a **MAJOR** is not eligible to play in another fielding position in that game, and will be required to complete one calendar days rest before any battery assignment (eg pitchers throwing a **MAJOR** on Saturday may not pitch/catch again until Monday). The pitcher must also complete one games rest before any further participation other than as a pinch hitter or pinch runner.
- A pitcher reaching a **SUBSTANTIAL** is not eligible to pitch again that day or play in another fielding position in that game except first base or second base
- No rest is required for a pitcher after a **MINOR**. However, if the **MINOR** is proceeded by another pitching assignment (i.e. double header) the player is not eligible to play in another fielding position in that game and must complete one (1) game rest before any further participation other than pinch hitter or pinch runner.

Definition of games rest shall be your teams next scheduled game time slot.

Overnight shall be interpreted as one slot.

 - If a strike, a ball or the batter is out, call a ball and a warning is given to the pitcher and the manager. No visit charged.
- **Runners On**
 - Wait and see what happens. If a hit and all runners advance safely at least one base, umpires will only protect the one base, then the play stands and a warning is given to the pitcher and manager.
 - If a strike, the batter is out or a ball, then a balk is called, all runners advance one base and a warning given to the pitcher and the manager.
 - No visit charged
 - If the same pitcher again throws a curve ball in the game and is acknowledged by the umpire then the pitcher is removed from the game and the manager is ejected with the above situations being enforced.
